

CARTS

EMERGENCY & IV CARTS • ISOLATION CARTS • CARDIAC ARREST CARTS • IV & MULTIPURPOSE CARTS • FLEXVANS • ACCESSORIES

How to find the right cart for your needs

- select the design that gives an overview - PAGE 3
- Go for functionality and a colourful design - PAGE 3
- Ensure flexibility and free hands - PAGE 8
- Expert advice, fast delivery and long durability - PAGE 12

Carts on wheels are flexible, saves space and can withstand being moved around. We have designed our carts like furniture and not like medical equipment to create a homelier impression.

Furniture on wheels gives an aesthetic expression and flexible options for design and layout

CareVan from Standard Systemer are designed to make everyday life easier

- Danish design and production, which means high quality and quick delivery.
- We will fulfil customer needs fully and accurately and we always advise on the best solution.
- The design takes its starting point in ergonomics, workflows and routines of everyday life.
- The carts are highly durable and we help with service and maintenance.
- If you would like a service agreement for CareVan, then please contact us for more information.
- Better hygiene - all surfaces are easy to clean and disinfect

Patient safety

Patients feel reassured when staff have control of the details. Choose carts that are designed so that you can quickly find things without having to rummage through all the drawers. You get have a good overview and can concentrate 100% on the patients.

AFTER

Clean surfaces

All carts have durable and hygiene-friendly surfaces that are easy to clean and disinfect

Colours with function

Use colours to make carts easier to recognise or highlight important drawers with a signal colour.

CareVan EMERGENCY & IV CARTS

A CareVan Emergency & IV cart can be designed with exactly the features you need. There is the option to choose from a wide range of accessories and features, allowing you to quickly get an overview and composure in your procedures.

We can customise the cart to your specific needs.

Emergency & IV cart 1

Prod. No. 18-REG0003

There is the option of locking or sealing the drawers

Anaesthesia carts are available with module trays as shown in the photo

Anaesthesia cart 4
H: 105, W: 66, D: 50 cm
Prod. No. 18-REG0004

CareVan ISOLATION CART

The isolation cart has a glove holder, surgical spirit dispenser and three drawers: The top drawer is for overalls, the middle drawer for masks and hats, while the bottom drawer is for hazardous waste bags and other important things.

An important part of the fight against infectious and drug-resistant bacteria is having sealed and hygienic storage of clothing by the isolated patient's room.

Isolation cart
H: 86, W: 51, D: 56 cm
Prod. No. 18-REG0018-03

Our isolation cart has been developed in collaboration with hygiene nurses and clinical development nurses.

CareVan CRASH CART

This crash cart with resuscitation equipment is quick to work with, practical to refill after use and easy to check on an ongoing basis. The cart has a platform for the defibrillator and drawers for electrodes, IV equipment, Ruben's balloon, medicine and other equipment. Select a rail for sealing the cart.

Crash cart
H: 96, W: 51, D: 56 cm
Prod. No. 18-REG0017-02

TIP: Avoid clutter by only having the most important items in the cart

Overbridge for carts

Practical overbridge with accessories means free hands, overview and order.

See our standard overbridge here that can be adapted as needed.

See the complete selection of accessories for carts at standardsystem.dk

Moulded plastic carts

It's easy to order from us

This inspiration brochure shows a selection of carts that we can quickly deliver. We know that many people have their own needs, therefore we always like to advise on individual solutions. You get a drawing of how your carts will be designed and laid out. After agreement we build a prototype cart, so that you can test whether the design works in practice before we build the finished cart.

Incredibly fast delivery

When you have ordered your cart, we know that you would like it in a hurry. And that's what you get. We are quick to offer advice, a drawing, a quote and a prototype cart if necessary, and we can usually produce and supply over the course of 3 weeks from the date you place your order.

Call +45 38 26 49 00 or write to info@standardsystem.dk and we will assist you from idea to the final solution.

  You can see more carts on Facebook and Instagram
